

CDM853.00

WHEEL LOADER

PARTS BOOK

Preface

Thank you for selecting our products.

The Parts Book is specifically for the CDM853.00 wheel loader with standard configuration, which provides relevant detailed information about all systems/assemblies/parts, including Chinese/English description, part number, specification and quantity per unit etc.

Non-standard products configured with other brand diesel engine, transmission, axles and optional parts, and modified loaders, e.g. coal loader, rock loader and high dump loader etc, can cause some changes in the systems/assemblies/parts, which are not listed in the Parts Book. Product improvement or supplier alteration might make parts different. If you have any question about the manual, please contact us or your nearest dealer.

In addition to parts description, specification and quantity, the Serial Number and Manufacture Date of specified machine should be supplied with spare parts order, so that we can deliver you correct parts in time.

Customers are sincerely requested to give us suggestions with contact information on the back cover.
